EXECUTIVE SUMMARY

The Goodyear Tire & Rubber Company started in 1898 with just 13 workers producing bicycle and carriage tires. From that first bicycle tire, Goodyear quickly grew to become the world's largest tire company, a title it earned in 1916 when it adopted the slogan "More people ride on Goodyear tires than on any other kind."

Today Goodyear has facilities across six continents and annual sales of more than \$16 billion. In addition to Goodyear-brand tires, we produce several other well-respected international brand names including Dunlop, Kelly, Fulda, Sava and Debica, and our non-tire business provides rubber products and polymers for a variety of markets, including Goodyear Authorized Retreads.

Goodyear is one of the world's leading tire companies with operations in most regions of the world and one of the most recognized brand names. Together with its U.S. and international subsidiaries and joint ventures, Goodyear develops, manufactures, markets, and distributes tires for most applications. It also manufactures and markets rubber-related chemicals for various applications.

Goodyear is one of the world's largest operators of commercial truck service and tire retreading centers. In addition, it operates approximately 1,240 tire and auto service center outlets where it offers its products for retail sale and provides automotive repair and other services. MANAGING RISK

Goodyear take a proactive approach to reduce risk, but we also work to create a corporate culture that values safety.

IDENTIFYING AND ELEMINTATING SAFTY RISKS

We all live with a certain level of risk each day. Our everyday activities, including driving a car, playing a sport, cooking food, and working around the house and yard, all come with some risk. The key to staying safe is to control these risks as much as possible.

At Goodyear, our plants are designed and engineered with more advanced safety devices for the work being performed. From basic physical guards to presence-sensing devices, our associates are protected.

All of our plants support our drive to zero injuries and incidents by taking a proactive approach to identifying and eliminating safety risks. The photos on this page are some examples of the safety engineering of our equipment.

While we work to identify and then implement measures to reduce risks in our facilities, we don't stop there. We also collaborate with our associates to develop a mindset where all associates act in a way that keeps them, and others around them, safe. We believe safeguarding our factories and machines is important, but it is also critical our associates accept safety as a value, both at work and at home.

SAFTY COMPLIANCE

Our management system includes the important component of auditing for adherence to legal and company requirements, as well as to manage system standards including International Organization for Standardization (ISO) 14001, Occupational Health and Safety Assessment Series (OHSAS) 18001 and the Occupational Safety and Health Administration (OSHA) Voluntary Protection Program (VPP). Our audit system includes self-audits, audits by internal audit teams and third-party auditors. Audit performance is also tracked as a key performance measure to help ensure we are continuously improving our environmental, health, safety and sustainability (EHS&S) systems.

WORLDWIDE ENVIROMENTAL HEALTH, SAFETY AND SUSTAINABILITY (EHS&S) SYSTEMS

Goodyear is committed to ensuring all our manufacturing facilities worldwide have safe and healthy operations with the goal of protecting the safety, health and well-being of associates, contractors, the surrounding communities and the environment.

To protect worker health, a risk assessment process is used to evaluate the potential hazards of materials used or considered for use in manufacturing. These risk assessments are performed by a Global Product Stewardship/Sustainability Team with the purpose of identifying health risks so they can be minimized or eliminated.

To assure healthy workroom air quality, all manufacturing facilities conduct routine exposure monitoring for potentially hazardous chemicals and/or physical agents. All Goodyear sites follow a standardized sampling protocol that is recognized by the professional industrial hygiene community. The protocol establishes statistical confidence pertaining to exposures in the workplace, characterized according to process operation, jobs performed, tasks and chemical/physical agent of concern. Goodyear facilities worldwide typically collect more than 5,000 industrial hygiene samples per year to help ensure exposures remain well below all recognized exposure criteria - regulatory and consensus - and thereby minimize health risks to associates.

GOODYEAR'S COMMITMENT TO PRIVACY

The Goodyear Tire & Rubber Company and its affiliates (collectively, "Goodyear") respect individual privacy and values the confidence of our associates, customers, vendors and others with whom we do business. Goodyear strives to process Personally Identifiable Information ("PII") in a manner consistent with the laws of the countries in which we do business.

You are not required to provide any PII to use this site. Any information you do provide through this site will be maintained in a reasonably secure manner and will only be used or disclosed in a manner consistent with the purposes for which you provide the information, or as otherwise disclosed to you, including as described in this policy. LIMITED WARRANTY

United States & Canada

Unisteel[®] Radial Light Truck Tires
Unisteel[®] Radial Medium Truck Tires

WHO IS ELIGIBLE FOR WARRANTY COVERAGE?

You are eligible for the benefits of this limited warranty if you meet all the following criteria:

- You are the owner or authorized agent of the owner of new Goodyear[®] Unisteel[®] radial light truck or medium radial truck tires, including mud and snow and on-/off-road tires.
- Your tires bear Department of Transportation (DOT) prescribed tire identification numbers and are not branded "NA" (Not Adjustable).
- Your Goodyear truck tires have been used only on the vehicle on which they were originally installed according to the vehicle manufacturer's or Goodyear's recommendations.
- Your tires were purchased on or after January 1, 2016.

WHAT IS COVERED AND FOR HOW LONG?

1. FREE TIRE REPLACEMENT – Goodyear truck tires covered by this warranty that become unserviceable due to a covered warranty condition during the first 2/32" (inch) treadwear or 12 months from date of purchase, whichever comes first, will be replaced with a comparable new Goodyear tire without charge. You pay only for the mounting and balancing. (Without proof of purchase, date of manufacture will be used to determine eligibility.)

2. PRORATED TIRE REPLACEMENT – Tires worn beyond the first 2/32" (inch) treadwear that become unserviceable due to a covered warranty condition will be replaced on a prorated basis. You are responsible for mounting, balancing and any additional services you order at the time of adjustment, as well as any taxes and government-mandated charges.

3. TIRES WITH DURASEAL TECHNOLOGY[®] — SEALANT CREDIT DURING ORIGINAL TREAD[®] – Failure of the DuraSeal Technology to seal a maximum 1/4" (inch) puncture in the repairable area of the original tread will qualify for a one-time credit during the life of the original tread within four (4) years from the date of the casing DOT serial number or proof of purchase, if available. Sealant credit is based on local currencies in the country where the adjustment takes place, \$50.00 for both the U.S. and Canada.

4. TIRES WITH DURASEAL TECHNOLOGY — SEALANT CREDIT DURING FIRST RETREAD[®] – Failure of the DuraSeal Technology to seal a maximum 1/4" (inch)

puncture in the repairable area of the tread will qualify for a one-time credit through 100% of the first retread up to four (4) years from the date of the casing DOT serial number or proof of purchase, if available. Sealant credit is based on local currencies in the country where the adjustment takes place, \$25.00 for both the U.S. and Canada. All punctures must be repaired at time of retreading for this Limited Warranty to be honored. If a sealant credit was issued during the original tread life, no other requests for credit will be honored.

*All claim forms submitted for sealant credit must be verified by an authorized Goodyear representative.

HOW WILL THE PRORATED CHARGES BE CALCULATED?

The replacement price will be calculated by multiplying the current Goodyear advertised selling price, at the adjustment location, by the percentage of usable original tread that has been worn off at the time of adjustment. You pay for mounting, balancing, an amount equal to the full current Federal Excise Tax (FET – U.S. only) and any other applicable taxes for the comparable new Goodyear replacement tire as well as any government-mandated charges.

EXAMPLE:

If your disabled tire had an original 16/32" (Inch) of usable tread depth and is worn to 8/32" (inch) of usable tread remaining, you have used 50% and therefore must pay 50% of the advertised selling price of a comparable tire, plus an amount equal to the full current Federal Excise Tax (U.S. only) applicable to the comparable new replacement tire at the time of adjustment. If the price of the comparable tire is \$400.00, the cost to you would be \$200.00 plus Federal Excise Tax (U.S. only), mounting, balancing, any other applicable taxes and government-mandated charges.

Amount Of Tread Used Original Tread	X	Value Of Comparable Tire	=	Prorated Price Of New Tire
---	---	-----------------------------	---	-------------------------------

(Plus FET [U.S. only], other applicable taxes, government-mandated charges and mounting and balancing.)

WHAT IS A COMPARABLE TIRE?

A "comparable" new Goodyear tire may be either the same line of tire or, in the event that the same tire is not available, a tire of the same basic construction and

quality with a different sidewall or tread configuration. If a higher priced tire is accepted as replacement, the difference in price will be at an additional charge to you.

Any replacement tire provided pursuant to this warranty will be covered by the Goodyear warranty in effect at the time of replacement.

WHAT IS NOT COVERED UNDER THIS LIMITED WARRANTY?

- Wear conditions or tire damage due to road hazards (including punctures, cuts, snags, impact breaks, etc.). Wreck, collision, or fire. Fast wear, irregular wear, heel and toe wear or other wear conditions.
- Improper inflation, overloading, high-speed spinup, misapplication, misuse, negligence, racing, chain damage, or improper mounting or demounting.
- Mechanical condition of the vehicle.
- Chip/chunk conditions on tires intended for highway service.
- Ride disturbance after the first 2/32" (inch) treadwear or due to damaged wheels or any vehicle condition.
- Any tire intentionally altered after leaving a factory producing Goodyear tires to change its appearance [example: white inlay on a black tire].
- Tires with weather cracking which were purchased more than four (4) years prior to presentation for adjustment. If you have no proof of purchase date, tires manufactured four (4) or more years prior to presentation are not covered.
- Material added to a tire after leaving a factory producing Goodyear tires (examples: tire fillers, sealants or balancing substances). If the added material is the cause of the tire being removed from service, the tire will not be adjusted.
- Any Goodyear Commercial Truck tire with the word "Mileage" on the sidewall.
- Tires removed from service due to improper repairs.
- Loss of time, inconvenience, loss of use of vehicle, incidental or consequential damage.

Note: Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

This limited warranty is applicable only in the U.S. and Canada.

WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND NO OTHER WARRANTY OR REPRESENTATION OF ANY KIND IS MADE BY GOODYEAR OR SHALL BE IMPLIED BY LAW.

Note: No Representative or Dealer has authority to make any representation, promise or agreement on behalf of Goodyear except as stated herein. SERIOUS INJURY, DEATH OR PROPERTY DAMAGE MAY RESULT FROM:

- TIRE FAILURE DUE TO UNDERINFLATION/OVERLOADING/MISAPPLICATION. Follow the vehicle owner's manual or tire placard in the vehicle.

**EARTHMOVER TIRE
LIMITED WARRANTY
For 20 to 39 Inch Rim Diameter Tires**

WHO IS ELIGIBLE?

You are eligible for the benefits of this Limited Warranty if you are the original purchaser or authorized agent of the original purchaser of new Goodyear 20 to 39 inch rim diameter Grader or Earthmover tires bearing our serial numbers.

WHAT IS COVERED AND FOR HOW LONG?

This Limited Warranty covers all Goodyear 20 to 39 inch rim diameter tires presented for adjustment on or after September 1, 2013. The Limited Warranty is in effect for 4 years commencing on the date of purchase. If proof of the purchase date is not available, the date of manufacture indicated on the serial number will be used as the warranty commencement date. Tires must be presented for consideration within six months of removal from service.

Coverage

If any Goodyear 20 to 39 inch rim diameter tire covered by this Limited Warranty becomes unserviceable due to a covered warranty condition, such tire will, at the option of Goodyear, be repaired or replaced with a comparable new Goodyear tire, discounted on a pro rata basis, or, at Goodyear's option, Goodyear will issue an appropriate credit. The customer charge for replacement will be calculated by multiplying Goodyear's current replacement tire price at the adjustment location (exclusive of taxes), by the percentage determined from the following chart. In the event Goodyear issues a credit, the credit will reflect the discount that would have been included in the foregoing charge.

WARRANTY LIMITATIONS:

This Limited Warranty is applicable to tires purchased from The Goodyear Tire & Rubber Company, Goodyear Canada Inc. or Goodyear International Corporation and their subsidiaries ("Goodyear").

No representative or dealer has authority to make any representation, promise, warranty or agreement on behalf of Goodyear except as stated herein.

Any tire, no matter how well constructed, may fail in service or otherwise become unserviceable due to conditions beyond the control of the manufacturer. Under no circumstances is this limited warranty a representation that a tire failure cannot occur.

WHAT IS NOT COVERED BY THIS WARRANTY?

- Tires purchased more than 48 months prior to presentation for adjustment. Without proof of purchase date, tires manufactured 48 months prior to presentation are not covered.
- Tires removed from service more than six months prior to presentation to Goodyear.

- Tires for which an alternate warranty/guarantee has been negotiated.
- Uniformity or vibration claims on tires purchased more than 6 months prior to presentation for adjustment, or if proof of purchase is not available, more than 6 months after the manufacture date.
- Air retention claims on tires purchased more than 3 months prior to presentation for adjustment, or if proof of purchase is not available, more than 3 months after the manufacture date.
- Irregular wear or tire damage due to: impact breaks, cuts, cut separations, snags, machine damage, wreck, collision, fire, improper inflation, overloading, misapplication, misuse, negligence, operation at excessive speed, rim or chain damage or damage caused by the mechanical condition of the vehicle.
- Tires operating in excess of their rated Ton-Mile-Per-Hour (TMPH) or Tonne-Kilometre-Per-Hour (TKPH) factor. Goodyear uses a 4 hour rolling average for TMPH / TKPH calculations. (A detailed description of TMPH / TKPH ratings may be found in Goodyear Publication: Off-The-Road Tires Engineering Data which can be found at www.goodyearotr.com).
- Tires operating in excess of the rated Work Capability Factor (WCF).
- Tires operated in applications that are inconsistent with the Equipment's specifications or restrictions.
- Tires with improperly seated beads. Knurling impressions from the rim that continue around the bead heel are sufficient evidence of improper seating.
- Tires mounted with "O" rings that are not approved by Goodyear for use with its Earthmover tires.
- Tires that have failed due to material added after original manufacture (example: tire fillers, sealant, ballast or balancing substances). If the added material is the cause of the tire being removed from service, they will not be adjusted.
- The cost of material added after original manufacture (example: tire fillers, sealant, ballast or balancing substances) regardless of removal cause.
- Repairs or Retreads.
- **GOODYEAR EXPRESSLY DISCLAIMS ANY WARRANTY OF FITNESS, MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE. THIS WARRANTY DOES NOT INCLUDE LOSS OF TIME, LOSS OF USE OF EQUIPMENT, LOST PROFITS, INCONVENIENCE, COST OF REPLACEMENT EQUIPMENT, OR ANY OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES.**

WHAT ARE YOUR LEGAL RIGHTS?

Some states and provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

OWNERS OBLIGATIONS

- A. You must present the tire to be considered for adjustment to an authorized Goodyear dealer or Goodyear Service Representative within 6 months of removal. See back cover for addresses and telephone numbers of Goodyear Service representatives.
- B. You must pay for taxes, mounting and any additional services you order at the time of adjustment.

For tires imported by or specifically for a Buyer (or his agent), Goodyear's responsibility will be based upon the Cost & Freight Port of Entry tire value prior to payment of import duties.

- C. No claim will be recognized unless the product is inspected and a claim is submitted electronically or on a Goodyear claim form into Goodyear's OTR Adjustment database by a Goodyear Representative. All adjustments are confirmed by mail.
- D. Onboard machine cycle, payload and productivity information must be made available to the authorized Goodyear Dealer or Goodyear Service Representative if requested.
- E. Adjusted tires may be incapacitated. Disposal of the tire is the responsibility of the owner.

WARNING

Property Damage, Serious Injury or Death may result from:

- ◆ **FAILURE DUE TO UNDERINFLATION/OVERLOADING:**
Follow owner's manual or tire placard placed in the vehicle.
- ◆ **EXPLOSION OF TIRE / RIM ASSEMBLY DUE TO IMPROPER MOUNTING:**
Consider using nitrogen to inflate OTR tires to reduce the risk of explosive tire failure. Only specially trained persons using proper equipment should mount tires.
- ◆ **FAILURE TO DEFLATE SINGLE OR DUAL ASSEMBLIES COMPLETELY BEFORE DEMOUNTING:**
Before loosening any clamps or nuts that attach a multi-piece rim assembly to a vehicle always completely deflate the tire mounted as a single or both tires in a dual assembly by removing the valve core(s). Never attempt to remove a tire from a rim unless the tire is completely deflated. In both cases above check the valve stem by running a piece of wire through the stem to make sure it is not plugged.
- ◆ **WELDING, BRAZING OR USING ANY TYPE OF HEAT SOURCE ON A MOUNTED TIRE / RIM ASSEMBLY:**
Do not, under any circumstances, attempt to rework, weld, heat or braze any rim components that are cracked, broken or damaged. Replace with new parts or parts that are not cracked, broken or damaged, and which are the same size, type and manufacturer. Consult the rim manufacturer concerning proper replacement components.

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. LIMITED WARRANTY

United States & Canada

Unisteel® Radial Light Truck Tires
Unisteel® Radial Medium Truck Tires

WHO IS ELIGIBLE FOR WARRANTY COVERAGE?

You are eligible for the benefits of this limited warranty if you meet all the following criteria:

- You are the owner or authorized agent of the owner of new Goodyear® Unisteel® radial light truck or medium radial truck tires, including mud and snow and on-/off-road tires.
- Your tires bear Department of Transportation (DOT) prescribed tire identification numbers and are not branded "NA" (Not Adjustable).
- Your Goodyear truck tires have been used only on the vehicle on which they were originally installed according to the vehicle manufacturer's or Goodyear's recommendations.
- Your tires were purchased on or after January 1, 2016.

WHAT IS COVERED AND FOR HOW LONG?

1. FREE TIRE REPLACEMENT – Goodyear truck tires covered by this warranty that become unserviceable due to a covered warranty condition during the first 2/32" (inch) treadwear or 12 months from date of purchase, whichever comes first, will be replaced with a comparable new Goodyear tire without charge. You pay only for the mounting and balancing. (Without proof of purchase, date of manufacture will be used to determine eligibility.)

2. PRORATED TIRE REPLACEMENT – Tires worn beyond the first 2/32" (inch) treadwear that become unserviceable due to a covered warranty condition will be replaced on a prorated basis. You are responsible for mounting, balancing and any additional services you order at the time of adjustment, as well as any taxes and government-mandated charges.

3. TIRES WITH DURASEAL TECHNOLOGY® — SEALANT CREDIT DURING ORIGINAL TREAD* – Failure of the DuraSeal Technology to seal a maximum 1/4" (inch) puncture in the repairable area of the original tread will qualify for a one-time credit during the life of the original tread within four (4) years from the date of the casing DOT serial number or proof of purchase, if available. Sealant credit is based on local currencies in the country where the adjustment takes place, \$50.00 for both the U.S. and Canada.

4. TIRES WITH DURASEAL TECHNOLOGY — SEALANT CREDIT DURING FIRST RETREAD* – Failure of the DuraSeal Technology to seal a maximum 1/4" (inch)

puncture in the repairable area of the tread will qualify for a one-time credit through 100% of the first retread up to four (4) years from the date of the casing DOT serial number or proof of purchase, if available. Sealant credit is based on local currencies in the country where the adjustment takes place, \$25.00 for both the U.S. and Canada. All punctures must be repaired at time of retreading for this Limited Warranty to be honored. If a sealant credit was issued during the original tread life, no other requests for credit will be honored.

*All claim forms submitted for sealant credit must be verified by an authorized Goodyear representative.

HOW WILL THE PRORATED CHARGES BE CALCULATED?

The replacement price will be calculated by multiplying the current Goodyear advertised selling price, at the adjustment location, by the percentage of usable original tread that has been worn off at the time of adjustment. You pay for mounting, balancing, an amount equal to the full current Federal Excise Tax (FET – U.S. only) and any other applicable taxes for the comparable new Goodyear replacement tire as well as any government-mandated charges.

EXAMPLE:

If your disabled tire had an original 16/32" (inch) of usable tread depth and is worn to 8/32" (inch) of usable tread remaining, you have used 50% and therefore must pay 50% of the advertised selling price of a comparable tire, plus an amount equal to the full current Federal Excise Tax (U.S. only) applicable to the comparable new replacement tire at the time of adjustment. If the price of the comparable tire is \$400.00, the cost to you would be \$200.00 plus Federal Excise Tax (U.S. only), mounting, balancing, any other applicable taxes and government-mandated charges.

Amount Of Tread Used Original Tread	X	Value Of Comparable Tire	=	Prorated Price Of New Tire
---	---	-----------------------------	---	-------------------------------

(Plus FET (U.S. only), other applicable taxes, government-mandated charges and mounting and balancing.)

WHAT IS A COMPARABLE TIRE?

A "comparable" new Goodyear tire may be either the same line of tire or, in the event that the same tire is not available, a tire of the same basic construction and

quality with a different sidewall or tread configuration. If a higher priced tire is accepted as replacement, the difference in price will be at an additional charge to you.

Any replacement tire provided pursuant to this warranty will be covered by the Goodyear warranty in effect at the time of replacement.

WHAT IS NOT COVERED UNDER THIS LIMITED WARRANTY?

- Wear conditions or tire damage due to road hazards (including punctures, cuts, snags, impact breaks, etc.). Wreck, collision, or fire. Fast wear, irregular wear, heel and toe wear or other wear conditions.
- Improper inflation, overloading, high-speed spinup, misapplication, misuse, negligence, racing, chain damage, or improper mounting or demounting.
- Mechanical condition of the vehicle.
- Chip/chunk conditions on tires intended for highway service.
- Ride disturbance after the first 2/32" (inch) treadwear or due to damaged wheels or any vehicle condition.
- Any tire intentionally altered after leaving a factory producing Goodyear tires to change its appearance (example: white inlay on a black tire).
- Tires with weather cracking which were purchased more than four (4) years prior to presentation for adjustment. If you have no proof of purchase date, tires manufactured four (4) or more years prior to presentation are not covered.
- Material added to a tire after leaving a factory producing Goodyear tires (examples: tire fillers, sealants or balancing substances). If the added material is the cause of the tire being removed from service, the tire will not be adjusted.
- Any Goodyear Commercial Truck tire with the word "Mileage" on the sidewall.
- Tires removed from service due to improper repairs.
- Loss of time, inconvenience, loss of use of vehicle, incidental or consequential damage.

Note: Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

This limited warranty is applicable only in the U.S. and Canada.

WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND NO OTHER WARRANTY OR REPRESENTATION OF ANY KIND IS MADE BY GOODYEAR OR SHALL BE IMPLIED BY LAW.

Note: No Representative or Dealer has authority to make any representation, promise or agreement on behalf of Goodyear except as stated herein. Any tire, no matter how well constructed, may fail in service or otherwise become unserviceable due to conditions beyond the control of the manufacturer. Under no circumstances is this warranty a representation that a tire failure cannot occur.

SERIOUS INJURY, DEATH OR PROPERTY DAMAGE MAY RESULT FROM:

- TIRE FAILURE DUE TO UNDERINFLATION/OVERLOADING/MISAPPLICATION. Follow the vehicle owner's manual or tire placard in the vehicle.
- TIRE FAILURE DUE TO IMPACT DAMAGE/IMPROPER MAINTENANCE. Tires should be inspected regularly by a qualified technician for signs of damage, such as punctures or impacts.

**EARTHMOVER TIRE
LIMITED WARRANTY
For 20 to 39 Inch Rim Diameter Tires**

WHO IS ELIGIBLE?

You are eligible for the benefits of this Limited Warranty if you are the original purchaser or authorized agent of the original purchaser of new Goodyear 20 to 39 inch rim diameter Grader or Earthmover tires bearing our serial numbers.

WHAT IS COVERED AND FOR HOW LONG?

This Limited Warranty covers all Goodyear 20 to 39 inch rim diameter tires presented for adjustment on or after September 1, 2013. The Limited Warranty is in effect for 4 years commencing on the date of purchase. If proof of the purchase date is not available, the date of manufacture indicated on the serial number will be used as the warranty commencement date. Tires must be presented for consideration within six months of removal from service.

Coverage

If any Goodyear 20 to 39 inch rim diameter tire covered by this Limited Warranty becomes unserviceable due to a covered warranty condition, such tire will, at the option of Goodyear, be repaired or replaced with a comparable new Goodyear tire, discounted on a pro rata basis, or, at Goodyear's option, Goodyear will issue an appropriate credit. The customer charge for replacement will be calculated by multiplying Goodyear's current replacement tire price at the adjustment location (exclusive of taxes), by the percentage determined from the following chart. In the event Goodyear issues a credit, the credit will reflect the discount that would have been included in the foregoing charge.

WARRANTY LIMITATIONS:

This Limited Warranty is applicable to tires purchased from The Goodyear Tire & Rubber Company, Goodyear Canada Inc. or Goodyear International Corporation and their subsidiaries ("Goodyear").

No representative or dealer has authority to make any representation, promise, warranty or agreement on behalf of Goodyear except as stated herein.

Any tire, no matter how well constructed, may fail in service or otherwise become unserviceable due to conditions beyond the control of the manufacturer. Under no circumstances is this limited warranty a representation that a tire failure cannot occur.

WHAT IS NOT COVERED BY THIS WARRANTY?

- Tires purchased more than 48 months prior to presentation for adjustment. Without proof of purchase date, tires manufactured 48 months prior to presentation are not covered.
- Tires removed from service more than six months prior to presentation to Goodyear.

- Tires for which an alternate warranty/guarantee has been negotiated.
- Uniformity or vibration claims on tires purchased more than 6 months prior to presentation for adjustment, or if proof of purchase is not available, more than 6 months after the manufacture date.
- Air retention claims on tires purchased more than 3 months prior to presentation for adjustment, or if proof of purchase is not available, more than 3 months after the manufacture date.
- Irregular wear or tire damage due to: impact breaks, cuts, cut separations, snags, machine damage, wreck, collision, fire, improper inflation, overloading, misapplication, misuse, negligence, operation at excessive speed, rim or chain damage or damage caused by the mechanical condition of the vehicle.
- Tires operating in excess of their rated Ton-Mile-Per-Hour (TMPH) or Tonne-Kilometre-Per-Hour (TKPH) factor. Goodyear uses a 4 hour rolling average for TMPH / TKPH calculations. (A detailed description of TMPH / TKPH ratings may be found in Goodyear Publication: Off-The-Road Tires Engineering Data which can be found at www.goodyearotr.com).
- Tires operating in excess of the rated Work Capability Factor (WCF).
- Tires operated in applications that are inconsistent with the Equipment's specifications or restrictions.
- Tires with improperly seated beads. Knurling impressions from the rim that continue around the bead heel are sufficient evidence of improper seating.
- Tires mounted with "O" rings that are not approved by Goodyear for use with its Earthmover tires.
- Tires that have failed due to material added after original manufacture (example: tire fillers, sealant, ballast or balancing substances). If the added material is the cause of the tire being removed from service, they will not be adjusted.
- The cost of material added after original manufacture (example: tire fillers, sealant, ballast or balancing substances) regardless of removal cause.
- Repairs or Retreads.
- **GOODYEAR EXPRESSLY DISCLAIMS ANY WARRANTY OF FITNESS, MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE. THIS WARRANTY DOES NOT INCLUDE LOSS OF TIME, LOSS OF USE OF EQUIPMENT, LOST PROFITS, INCONVENIENCE, COST OF REPLACEMENT EQUIPMENT, OR ANY OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES.**

WHAT ARE YOUR LEGAL RIGHTS?

Some states and provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

OWNERS OBLIGATIONS

- A. You must present the tire to be considered for adjustment to an authorized Goodyear dealer or Goodyear Service Representative within 6 months of removal. See back cover for addresses and telephone numbers of Goodyear Service representatives.
- B. You must pay for taxes, mounting and any additional services you order at the time of adjustment.

For tires imported by or specifically for a Buyer (or his agent), Goodyear's responsibility will be based upon the Cost & Freight Port of Entry tire value prior to payment of import duties.

- C. No claim will be recognized unless the product is inspected and a claim is submitted electronically or on a Goodyear claim form into Goodyear's OTR Adjustment database by a Goodyear Representative. All adjustments are confirmed by mail.
- D. Onboard machine cycle, payload and productivity information must be made available to the authorized Goodyear Dealer or Goodyear Service Representative if requested.
- E. Adjusted tires may be incapacitated. Disposal of the tire is the responsibility of the owner.

WARNING

Property Damage, Serious Injury or Death may result from:

- ◆ **FAILURE DUE TO UNDERINFLATION/OVERLOADING:**
Follow owner's manual or tire placard placed in the vehicle.
- ◆ **EXPLOSION OF TIRE / RIM ASSEMBLY DUE TO IMPROPER MOUNTING:**
Consider using nitrogen to inflate OTR tires to reduce the risk of explosive tire failure. Only specially trained persons using proper equipment should mount tires.
- ◆ **FAILURE TO DEFLATE SINGLE OR DUAL ASSEMBLIES COMPLETELY BEFORE DEMOUNTING:**
Before loosening any clamps or nuts that attach a multi-piece rim assembly to a vehicle always completely deflate the tire mounted as a single or both tires in a dual assembly by removing the valve core(s). Never attempt to remove a tire from a rim unless the tire is completely deflated. In both cases above check the valve stem by running a piece of wire through the stem to make sure it is not plugged.
- ◆ **WELDING, BRAZING OR USING ANY TYPE OF HEAT SOURCE ON A MOUNTED TIRE / RIM ASSEMBLY:**
Do not, under any circumstances, attempt to rework, weld, heat or braze any rim components that are cracked, broken or damaged. Replace with new parts or parts that are not cracked, broken or damaged, and which are the same size, type and manufacturer. Consult the rim manufacturer concerning proper replacement components.

EXECUTIVE SUMMARY

The Goodyear Tire & Rubber Company started in 1898 with just 13 workers producing bicycle and carriage tires. From that first bicycle tire, Goodyear quickly grew to become the world's largest tire company, a title it earned in 1916 when it adopted the slogan "More people ride on Goodyear tires than on any other kind."

Today Goodyear has facilities across six continents and annual sales of more than \$16 billion. In addition to Goodyear-brand tires, we produce several other well-respected international brand names including Dunlop, Kelly, Fulda, Sava and Debica, and our non-tire business provides rubber products and polymers for a variety of markets, including Goodyear Authorized Retreads.

Goodyear is one of the world's leading tire companies with operations in most regions of the world and one of the most recognized brand names. Together with its U.S. and international subsidiaries and joint ventures, Goodyear develops, manufactures, markets, and distributes tires for most applications. It also manufactures and markets rubber-related chemicals for various applications.

Goodyear is one of the world's largest operators of commercial truck service and tire retreading centers. In addition, it operates approximately 1,240 tire and auto service center outlets where it offers its products for retail sale and provides automotive repair and other services. MANAGING RISK

Goodyear take a proactive approach to reduce risk, but we also work to create a corporate culture that values safety.

IDENTIFYING AND ELEMINTATING SAFTY RISKS

We all live with a certain level of risk each day. Our everyday activities, including driving a car, playing a sport, cooking food, and working around the house and yard, all come with some risk. The key to staying safe is to control these risks as much as possible.

At Goodyear, our plants are designed and engineered with more advanced safety devices for the work being performed. From basic physical guards to presence-sensing devices, our associates are protected.

All of our plants support our drive to zero injuries and incidents by taking a proactive approach to identifying and eliminating safety risks. The photos on this page are some examples of the safety engineering of our equipment.

While we work to identify and then implement measures to reduce risks in our facilities, we don't stop there. We also collaborate with our associates to develop a mindset where all associates act in a way that keeps them, and others around them, safe. We believe safeguarding our factories and machines is important, but it is also critical our associates accept safety as a value, both at work and at home.

SAFTY COMPLIANCE

Our management system includes the important component of auditing for adherence to legal and company requirements, as well as to manage system standards including International Organization for Standardization (ISO) 14001, Occupational Health and Safety Assessment Series (OHSAS) 18001 and the Occupational Safety and Health Administration (OSHA) Voluntary Protection Program (VPP). Our audit system includes self-audits, audits by internal audit teams and third-party auditors. Audit performance is also tracked as a key performance measure to help ensure we are continuously improving our environmental, health, safety and sustainability (EHS&S) systems.

WORLDWIDE ENVIROMENTAL HEALTH, SAFETY AND SUSTAINABILITY (EHS&S) SYSTEMS

Goodyear is committed to ensuring all our manufacturing facilities worldwide have safe and healthy operations with the goal of protecting the safety, health and well-being of associates, contractors, the surrounding communities and the environment.

To protect worker health, a risk assessment process is used to evaluate the potential hazards of materials used or considered for use in manufacturing. These risk assessments are performed by a Global Product Stewardship/Sustainability Team with the purpose of identifying health risks so they can be minimized or eliminated.

To assure healthy workroom air quality, all manufacturing facilities conduct routine exposure monitoring for potentially hazardous chemicals and/or physical agents. All Goodyear sites follow a standardized sampling protocol that is recognized by the professional industrial hygiene community. The protocol establishes statistical confidence pertaining to exposures in the workplace, characterized according to process operation, jobs performed, tasks and chemical/physical agent of concern. Goodyear facilities worldwide typically collect more than 5,000 industrial hygiene samples per year to help ensure exposures remain well below all recognized exposure criteria - regulatory and consensus - and thereby minimize health risks to associates.

GOODYEAR'S COMMITMENT TO PRIVACY

The Goodyear Tire & Rubber Company and its affiliates (collectively, "Goodyear") respect individual privacy and values the confidence of our associates, customers, vendors and others with whom we do business. Goodyear strives to process Personally Identifiable Information ("PII") in a manner consistent with the laws of the countries in which we do business.

You are not required to provide any PII to use this site. Any information you do provide through this site will be maintained in a reasonably secure manner and will only be used or disclosed in a manner consistent with the purposes for which you provide the information, or as otherwise disclosed to you, including as described in this policy. LIMITED WARRANTY

United States & Canada

Unisteel[®] Radial Light Truck Tires
Unisteel[®] Radial Medium Truck Tires

WHO IS ELIGIBLE FOR WARRANTY COVERAGE?

You are eligible for the benefits of this limited warranty if you meet all the following criteria:

- You are the owner or authorized agent of the owner of new Goodyear[®] Unisteel[®] radial light truck or medium radial truck tires, including mud and snow and on-/off-road tires.
- Your tires bear Department of Transportation (DOT) prescribed tire identification numbers and are not branded "NA" (Not Adjustable).
- Your Goodyear truck tires have been used only on the vehicle on which they were originally installed according to the vehicle manufacturer's or Goodyear's recommendations.
- Your tires were purchased on or after January 1, 2016.

WHAT IS COVERED AND FOR HOW LONG?

1. FREE TIRE REPLACEMENT – Goodyear truck tires covered by this warranty that become unserviceable due to a covered warranty condition during the first 2/32" (inch) treadwear or 12 months from date of purchase, whichever comes first, will be replaced with a comparable new Goodyear tire without charge. You pay only for the mounting and balancing. (Without proof of purchase, date of manufacture will be used to determine eligibility.)

2. PRORATED TIRE REPLACEMENT – Tires worn beyond the first 2/32" (inch) treadwear that become unserviceable due to a covered warranty condition will be replaced on a prorated basis. You are responsible for mounting, balancing and any additional services you order at the time of adjustment, as well as any taxes and government-mandated charges.

3. TIRES WITH DURASEAL TECHNOLOGY[®] — SEALANT CREDIT DURING ORIGINAL TREAD[®] – Failure of the DuraSeal Technology to seal a maximum 1/4" (inch) puncture in the repairable area of the original tread will qualify for a one-time credit during the life of the original tread within four (4) years from the date of the casing DOT serial number or proof of purchase, if available. Sealant credit is based on local currencies in the country where the adjustment takes place, \$50.00 for both the U.S. and Canada.

4. TIRES WITH DURASEAL TECHNOLOGY — SEALANT CREDIT DURING FIRST RETREAD[®] – Failure of the DuraSeal Technology to seal a maximum 1/4" (inch)

puncture in the repairable area of the tread will qualify for a one-time credit through 100% of the first retread up to four (4) years from the date of the casing DOT serial number or proof of purchase, if available. Sealant credit is based on local currencies in the country where the adjustment takes place, \$25.00 for both the U.S. and Canada. All punctures must be repaired at time of retreading for this Limited Warranty to be honored. If a sealant credit was issued during the original tread life, no other requests for credit will be honored.

*All claim forms submitted for sealant credit must be verified by an authorized Goodyear representative.

HOW WILL THE PRORATED CHARGES BE CALCULATED?

The replacement price will be calculated by multiplying the current Goodyear advertised selling price, at the adjustment location, by the percentage of usable original tread that has been worn off at the time of adjustment. You pay for mounting, balancing, an amount equal to the full current Federal Excise Tax (FET – U.S. only) and any other applicable taxes for the comparable new Goodyear replacement tire as well as any government-mandated charges.

EXAMPLE:

If your disabled tire had an original 16/32" (inch) of usable tread depth and is worn to 8/32" (inch) of usable tread remaining, you have used 50% and therefore must pay 50% of the advertised selling price of a comparable tire, plus an amount equal to the full current Federal Excise Tax (U.S. only) applicable to the comparable new replacement tire at the time of adjustment. If the price of the comparable tire is \$400.00, the cost to you would be \$200.00 plus Federal Excise Tax (U.S. only), mounting, balancing, any other applicable taxes and government-mandated charges.

Amount Of Tread Used Original Tread	X	Value Of Comparable Tire	=	Prorated Price Of New Tire
---	---	-----------------------------	---	-------------------------------

(Plus FET [U.S. only], other applicable taxes, government-mandated charges and mounting and balancing.)

WHAT IS A COMPARABLE TIRE?

A "comparable" new Goodyear tire may be either the same line of tire or, in the event that the same tire is not available, a tire of the same basic construction and

quality with a different sidewall or tread configuration. If a higher priced tire is accepted as replacement, the difference in price will be at an additional charge to you.

Any replacement tire provided pursuant to this warranty will be covered by the Goodyear warranty in effect at the time of replacement.

WHAT IS NOT COVERED UNDER THIS LIMITED WARRANTY?

- Wear conditions or tire damage due to road hazards (including punctures, cuts, snags, impact breaks, etc.). Wreck, collision, or fire. Fast wear, irregular wear, heel and toe wear or other wear conditions.
- Improper inflation, overloading, high-speed spinup, misapplication, misuse, negligence, racing, chain damage, or improper mounting or demounting.
- Mechanical condition of the vehicle.
- Chip/chunk conditions on tires intended for highway service.
- Ride disturbance after the first 2/32" (inch) treadwear or due to damaged wheels or any vehicle condition.
- Any tire intentionally altered after leaving a factory producing Goodyear tires to change its appearance [example: white inlay on a black tire].
- Tires with weather cracking which were purchased more than four (4) years prior to presentation for adjustment. If you have no proof of purchase date, tires manufactured four (4) or more years prior to presentation are not covered.
- Material added to a tire after leaving a factory producing Goodyear tires (examples: tire fillers, sealants or balancing substances). If the added material is the cause of the tire being removed from service, the tire will not be adjusted.
- Any Goodyear Commercial Truck tire with the word "Mileage" on the sidewall.
- Tires removed from service due to improper repairs.
- Loss of time, inconvenience, loss of use of vehicle, incidental or consequential damage.

Note: Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

This limited warranty is applicable only in the U.S. and Canada.

WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND NO OTHER WARRANTY OR REPRESENTATION OF ANY KIND IS MADE BY GOODYEAR OR SHALL BE IMPLIED BY LAW.

LIMITATION OF DAMAGES: IN NO EVENT AND UNDER NO CIRCUMSTANCE SHALL GOODYEAR BE LIABLE TO THE BUYER FOR CONSEQUENTIAL, LOST PROFIT, LOSS OF BUSINESS, LOSS OF GOODWILL OR REPUTATION, PUNITIVE OR OTHER DAMAGE, COST (INCLUDING FOR REPLACEMENT TRANSPORTATION), EXPENSE OR LOSS OF ANY KIND. Note: No Representative or Dealer has authority to make any representation, promise or agreement on behalf of Goodyear except as stated herein. Under no circumstances is this warranty a representation that a tire failure cannot occur.

SERIOUS INJURY, DEATH OR PROPERTY DAMAGE MAY RESULT FROM:

- TIRE FAILURE DUE TO UNDERINFLATION/OVERLOADING/MISAPPLICATION. Follow the vehicle owner's manual or tire placard in the vehicle.
- TIRE FAILURE DUE TO IMPACT DAMAGE/IMPROPER MAINTENANCE. Tires should be inspected regularly by a qualified technician for signs of damage, such as punctures or impacts.

**EARTHMOVER TIRE
LIMITED WARRANTY
For 20 to 39 Inch Rim Diameter Tires**

WHO IS ELIGIBLE?

You are eligible for the benefits of this Limited Warranty if you are the original purchaser or authorized agent of the original purchaser of new Goodyear 20 to 39 inch rim diameter Grader or Earthmover tires bearing our serial numbers.

WHAT IS COVERED AND FOR HOW LONG?

This Limited Warranty covers all Goodyear 20 to 39 inch rim diameter tires presented for adjustment on or after September 1, 2013. The Limited Warranty is in effect for 4 years commencing on the date of purchase. If proof of the purchase date is not available, the date of manufacture indicated on the serial number will be used as the warranty commencement date. Tires must be presented for consideration within six months of removal from service.

Coverage

If any Goodyear 20 to 39 inch rim diameter tire covered by this Limited Warranty becomes unserviceable due to a covered warranty condition, such tire will, at the option of Goodyear, be repaired or replaced with a comparable new Goodyear tire, discounted on a pro rata basis, or, at Goodyear's option, Goodyear will issue an appropriate credit. The customer charge for replacement will be calculated by multiplying Goodyear's current replacement tire price at the adjustment location (exclusive of taxes), by the percentage determined from the following chart. In the event Goodyear issues a credit, the credit will reflect the discount that would have been included in the foregoing charge.

WARRANTY LIMITATIONS:

This Limited Warranty is applicable to tires purchased from The Goodyear Tire & Rubber Company, Goodyear Canada Inc. or Goodyear International Corporation and their subsidiaries ("Goodyear").

No representative or dealer has authority to make any representation, promise, warranty or agreement on behalf of Goodyear except as stated herein.

Any tire, no matter how well constructed, may fail in service or otherwise become unserviceable due to conditions beyond the control of the manufacturer. Under no circumstances is this limited warranty a representation that a tire failure cannot occur.

WHAT IS NOT COVERED BY THIS WARRANTY?

- Tires purchased more than 48 months prior to presentation for adjustment. Without proof of purchase date, tires manufactured 48 months prior to presentation are not covered.
- Tires removed from service more than six months prior to presentation to Goodyear.

- Tires for which an alternate warranty/guarantee has been negotiated.
- Uniformity or vibration claims on tires purchased more than 6 months prior to presentation for adjustment, or if proof of purchase is not available, more than 6 months after the manufacture date.
- Air retention claims on tires purchased more than 3 months prior to presentation for adjustment, or if proof of purchase is not available, more than 3 months after the manufacture date.
- Irregular wear or tire damage due to: impact breaks, cuts, cut separations, snags, machine damage, wreck, collision, fire, improper inflation, overloading, misapplication, misuse, negligence, operation at excessive speed, rim or chain damage or damage caused by the mechanical condition of the vehicle.
- Tires operating in excess of their rated Ton-Mile-Per-Hour (TMPH) or Tonne-Kilometre-Per-Hour (TKPH) factor. Goodyear uses a 4 hour rolling average for TMPH / TKPH calculations. (A detailed description of TMPH / TKPH ratings may be found in Goodyear Publication: Off-The-Road Tires Engineering Data which can be found at www.goodyearotr.com).
- Tires operating in excess of the rated Work Capability Factor (WCF).
- Tires operated in applications that are inconsistent with the Equipment's specifications or restrictions.
- Tires with improperly seated beads. Knurling impressions from the rim that continue around the bead heel are sufficient evidence of improper seating.
- Tires mounted with "O" rings that are not approved by Goodyear for use with its Earthmover tires.
- Tires that have failed due to material added after original manufacture (example: tire fillers, sealant, ballast or balancing substances). If the added material is the cause of the tire being removed from service, they will not be adjusted.
- The cost of material added after original manufacture (example: tire fillers, sealant, ballast or balancing substances) regardless of removal cause.
- Repairs or Retreads.
- **GOODYEAR EXPRESSLY DISCLAIMS ANY WARRANTY OF FITNESS, MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE. THIS WARRANTY DOES NOT INCLUDE LOSS OF TIME, LOSS OF USE OF EQUIPMENT, LOST PROFITS, INCONVENIENCE, COST OF REPLACEMENT EQUIPMENT, OR ANY OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES.**

WHAT ARE YOUR LEGAL RIGHTS?

Some states and provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

OWNERS OBLIGATIONS

- A. You must present the tire to be considered for adjustment to an authorized Goodyear dealer or Goodyear Service Representative within 6 months of removal. See back cover for addresses and telephone numbers of Goodyear Service representatives.
- B. You must pay for taxes, mounting and any additional services you order at the time of adjustment.

For tires imported by or specifically for a Buyer (or his agent), Goodyear's responsibility will be based upon the Cost & Freight Port of Entry tire value prior to payment of import duties.

- C. No claim will be recognized unless the product is inspected and a claim is submitted electronically or on a Goodyear claim form into Goodyear's OTR Adjustment database by a Goodyear Representative. All adjustments are confirmed by mail.
- D. Onboard machine cycle, payload and productivity information must be made available to the authorized Goodyear Dealer or Goodyear Service Representative if requested.
- E. Adjusted tires may be incapacitated. Disposal of the tire is the responsibility of the owner.

WARNING

Property Damage, Serious Injury or Death may result from:

- ◆ **FAILURE DUE TO UNDERINFLATION/OVERLOADING:**
Follow owner's manual or tire placard placed in the vehicle.
- ◆ **EXPLOSION OF TIRE / RIM ASSEMBLY DUE TO IMPROPER MOUNTING:**
Consider using nitrogen to inflate OTR tires to reduce the risk of explosive tire failure. Only specially trained persons using proper equipment should mount tires.
- ◆ **FAILURE TO DEFLATE SINGLE OR DUAL ASSEMBLIES COMPLETELY BEFORE DEMOUNTING:**
Before loosening any clamps or nuts that attach a multi-piece rim assembly to a vehicle always completely deflate the tire mounted as a single or both tires in a dual assembly by removing the valve core(s). Never attempt to remove a tire from a rim unless the tire is completely deflated. In both cases above check the valve stem by running a piece of wire through the stem to make sure it is not plugged.
- ◆ **WELDING, BRAZING OR USING ANY TYPE OF HEAT SOURCE ON A MOUNTED TIRE / RIM ASSEMBLY:**
Do not, under any circumstances, attempt to rework, weld, heat or braze any rim components that are cracked, broken or damaged. Replace with new parts or parts that are not cracked, broken or damaged, and which are the same size, type and manufacturer. Consult the rim manufacturer concerning proper replacement components.

LIMITED WARRANTY

United States & Canada

Unisteel® Radial Light Truck Tires
Unisteel® Radial Medium Truck Tires

WHO IS ELIGIBLE FOR WARRANTY COVERAGE?

You are eligible for the benefits of this limited warranty if you meet all the following criteria:

- You are the owner or authorized agent of the owner of new Goodyear® Unisteel® radial light truck or medium radial truck tires, including mud and snow and on-/off-road tires.
- Your tires bear Department of Transportation (DOT) prescribed tire identification numbers and are not branded "NA" (Not Adjustable).
- Your Goodyear truck tires have been used only on the vehicle on which they were originally installed according to the vehicle manufacturer's or Goodyear's recommendations.
- Your tires were purchased on or after January 1, 2016.

WHAT IS COVERED AND FOR HOW LONG?

1. FREE TIRE REPLACEMENT – Goodyear truck tires covered by this warranty that become unserviceable due to a covered warranty condition during the first 2/32" (inch) treadwear or 12 months from date of purchase, whichever comes first, will be replaced with a comparable new Goodyear tire without charge. You pay only for the mounting and balancing. (Without proof of purchase, date of manufacture will be used to determine eligibility.)

2. PRORATED TIRE REPLACEMENT – Tires worn beyond the first 2/32" (inch) treadwear that become unserviceable due to a covered warranty condition will be replaced on a prorated basis. You are responsible for mounting, balancing and any additional services you order at the time of adjustment, as well as any taxes and government-mandated charges.

3. TIRES WITH DURASEAL TECHNOLOGY® — SEALANT CREDIT DURING ORIGINAL TREAD* – Failure of the DuraSeal Technology to seal a maximum 1/4" (inch) puncture in the repairable area of the original tread will qualify for a one-time credit during the life of the original tread within four (4) years from the date of the casing DOT serial number or proof of purchase, if available. Sealant credit is based on local currencies in the country where the adjustment takes place, \$50.00 for both the U.S. and Canada.

4. TIRES WITH DURASEAL TECHNOLOGY — SEALANT CREDIT DURING FIRST RETREAD* – Failure of the DuraSeal Technology to seal a maximum 1/4" (inch)

puncture in the repairable area of the tread will qualify for a one-time credit through 100% of the first retread up to four (4) years from the date of the casing DOT serial number or proof of purchase, if available. Sealant credit is based on local currencies in the country where the adjustment takes place, \$25.00 for both the U.S. and Canada. All punctures must be repaired at time of retreading for this Limited Warranty to be honored. If a sealant credit was issued during the original tread life, no other requests for credit will be honored.

*All claim forms submitted for sealant credit must be verified by an authorized Goodyear representative.

HOW WILL THE PRORATED CHARGES BE CALCULATED?

The replacement price will be calculated by multiplying the current Goodyear advertised selling price, at the adjustment location, by the percentage of usable original tread that has been worn off at the time of adjustment. You pay for mounting, balancing, an amount equal to the full current Federal Excise Tax (FET – U.S. only) and any other applicable taxes for the comparable new Goodyear replacement tire as well as any government-mandated charges.

EXAMPLE:

If your disabled tire had an original 16/32" (inch) of usable tread depth and is worn to 8/32" (inch) of usable tread remaining, you have used 50% and therefore must pay 50% of the advertised selling price of a comparable tire, plus an amount equal to the full current Federal Excise Tax (U.S. only) applicable to the comparable new replacement tire at the time of adjustment. If the price of the comparable tire is \$400.00, the cost to you would be \$200.00 plus Federal Excise Tax (U.S. only), mounting, balancing, any other applicable taxes and government-mandated charges.

Amount Of Tread Used Original Tread	X	Value Of Comparable Tire	=	Prorated Price Of New Tire
-------------------------------------	---	--------------------------	---	----------------------------

(Plus FET (U.S. only), other applicable taxes, government-mandated charges and mounting and balancing.)

WHAT IS A COMPARABLE TIRE?

A "comparable" new Goodyear tire may be either the same line of tire or, in the event that the same tire is not available, a tire of the same basic construction and

quality with a different sidewall or tread configuration. If a higher priced tire is accepted as replacement, the difference in price will be at an additional charge to you.

Any replacement tire provided pursuant to this warranty will be covered by the Goodyear warranty in effect at the time of replacement.

WHAT IS NOT COVERED UNDER THIS LIMITED WARRANTY?

- Wear conditions or tire damage due to road hazards (including punctures, cuts, snags, impact breaks, etc.). Wreck, collision, or fire. Fast wear, irregular wear, heel and toe wear or other wear conditions.
- Improper inflation, overloading, high-speed spinup, misapplication, misuse, negligence, racing, chain damage, or improper mounting or demounting.
- Mechanical condition of the vehicle.
- Chip/chunk conditions on tires intended for highway service.
- Ride disturbance after the first 2/32" (inch) treadwear or due to damaged wheels or any vehicle condition.
- Any tire intentionally altered after leaving a factory producing Goodyear tires to change its appearance (example: white inlay on a black tire).
- Tires with weather cracking which were purchased more than four (4) years prior to presentation for adjustment. If you have no proof of purchase date, tires manufactured four (4) or more years prior to presentation are not covered.
- Material added to a tire after leaving a factory producing Goodyear tires (examples: tire fillers, sealants or balancing substances). If the added material is the cause of the tire being removed from service, the tire will not be adjusted.
- Any Goodyear Commercial Truck tire with the word "Mileage" on the sidewall.
- Tires removed from service due to improper repairs.
- Loss of time, inconvenience, loss of use of vehicle, incidental or consequential damage.

Note: Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

This limited warranty is applicable only in the U.S. and Canada.

**EARTHMOVER TIRE
LIMITED WARRANTY
For 20 to 39 Inch Rim Diameter Tires**

WHO IS ELIGIBLE?

You are eligible for the benefits of this Limited Warranty if you are the original purchaser or authorized agent of the original purchaser of new Goodyear 20 to 39 inch rim diameter Grader or Earthmover tires bearing our serial numbers.

WHAT IS COVERED AND FOR HOW LONG?

This Limited Warranty covers all Goodyear 20 to 39 inch rim diameter tires presented for adjustment on or after September 1, 2013. The Limited Warranty is in effect for 4 years commencing on the date of purchase. If proof of the purchase date is not available, the date of manufacture indicated on the serial number will be used as the warranty commencement date. Tires must be presented for consideration within six months of removal from service.

Coverage

If any Goodyear 20 to 39 inch rim diameter tire covered by this Limited Warranty becomes unserviceable due to a covered warranty condition, such tire will, at the option of Goodyear, be repaired or replaced with a comparable new Goodyear tire, discounted on a pro rata basis, or, at Goodyear's option, Goodyear will issue an appropriate credit. The customer charge for replacement will be calculated by multiplying Goodyear's current replacement tire price at the adjustment location (exclusive of taxes), by the percentage determined from the following chart. In the event Goodyear issues a credit, the credit will reflect the discount that would have been included in the foregoing charge.

WARRANTY LIMITATIONS:

This Limited Warranty is applicable to tires purchased from The Goodyear Tire & Rubber Company, Goodyear Canada Inc. or Goodyear International Corporation and their subsidiaries ("Goodyear").

No representative or dealer has authority to make any representation, promise, warranty or agreement on behalf of Goodyear except as stated herein.

Any tire, no matter how well constructed, may fail in service or otherwise become unserviceable due to conditions beyond the control of the manufacturer. Under no circumstances is this limited warranty a representation that a tire failure cannot occur.

WHAT IS NOT COVERED BY THIS WARRANTY?

- Tires purchased more than 48 months prior to presentation for adjustment. Without proof of purchase date, tires manufactured 48 months prior to presentation are not covered.
- Tires removed from service more than six months prior to presentation to Goodyear.

- Tires for which an alternate warranty/guarantee has been negotiated.
- Uniformity or vibration claims on tires purchased more than 6 months prior to presentation for adjustment, or if proof of purchase is not available, more than 6 months after the manufacture date.
- Air retention claims on tires purchased more than 3 months prior to presentation for adjustment, or if proof of purchase is not available, more than 3 months after the manufacture date.
- Irregular wear or tire damage due to: impact breaks, cuts, cut separations, snags, machine damage, wreck, collision, fire, improper inflation, overloading, misapplication, misuse, negligence, operation at excessive speed, rim or chain damage or damage caused by the mechanical condition of the vehicle.
- Tires operating in excess of their rated Ton-Mile-Per-Hour (TMPH) or Tonne-Kilometre-Per-Hour (TKPH) factor. Goodyear uses a 4 hour rolling average for TMPH / TKPH calculations. (A detailed description of TMPH / TKPH ratings may be found in Goodyear Publication: Off-The-Road Tires Engineering Data which can be found at www.goodyearotr.com).
- Tires operating in excess of the rated Work Capability Factor (WCF).
- Tires operated in applications that are inconsistent with the Equipment's specifications or restrictions.

- Tires mounted with "O" rings that are not approved by Goodyear for use with its Earthmover tires.
- Tires that have failed due to material added after original manufacture (example: tire fillers, sealant, ballast or balancing substances). If the added material is the cause of the tire being removed from service, they will not be adjusted.
- The cost of material added after original manufacture (example: tire fillers, sealant, ballast or balancing substances) regardless of removal cause.
- Repairs or Retreads.
- **GOODYEAR EXPRESSLY DISCLAIMS ANY WARRANTY OF FITNESS, MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE. THIS WARRANTY DOES NOT INCLUDE LOSS OF TIME, LOSS OF USE OF EQUIPMENT, LOST PROFITS, INCONVENIENCE, COST OF REPLACEMENT EQUIPMENT, OR ANY OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES.**

For tires imported by or specifically for a Buyer (or his agent), Goodyear's responsibility will be based upon the Cost & Freight Port of Entry tire value prior to payment of import duties.

- C. No claim will be recognized unless the product is inspected and a claim is submitted electronically or on a Goodyear claim form into Goodyear's OTR Adjustment database by a Goodyear Representative. All adjustments are confirmed by mail.
- D. Onboard machine cycle, payload and productivity information must be made available to the authorized Goodyear Dealer or Goodyear Service Representative if requested.
- E. Adjusted tires may be incapacitated. Disposal of the tire is the responsibility of the owner.

WARNING

Property Damage, Serious Injury or Death may result from:

- ◆ **FAILURE DUE TO UNDERINFLATION/OVERLOADING:**
Follow owner's manual or tire placard placed in the vehicle.
- ◆ **EXPLOSION OF TIRE / RIM ASSEMBLY DUE TO IMPROPER MOUNTING:**
Consider using nitrogen to inflate OTR tires to reduce the risk of explosive tire failure. Only specially trained persons using proper equipment should mount tires.
- ◆ **FAILURE TO DEFLATE SINGLE OR DUAL ASSEMBLIES COMPLETELY BEFORE DEMOUNTING:**
Before loosening any clamps or nuts that attach a multi-piece rim assembly to a vehicle always completely deflate the tire mounted as a single or both tires in a dual assembly by removing the valve core(s). Never attempt to remove a tire from a rim unless the tire is completely deflated. In both cases above check the valve stem by running a piece of wire through the stem to make sure it is not plugged.
- ◆ **WELDING, BRAZING OR USING ANY TYPE OF HEAT SOURCE ON A MOUNTED TIRE / RIM ASSEMBLY:**
Do not, under any circumstances, attempt to rework, weld, heat or braze any rim components that are cracked, broken or damaged. Replace with new parts or parts that are not cracked, broken or damaged, and which are the same size, type and manufacturer. Consult the rim manufacturer concerning proper replacement components.
