

Casey Slone Construction, L.L.C.

Gregg County Youth Center Building Renovations RFP

RFI Response 02/04/19

1. The specs call for waterproofing membrane in the bathroom floors, do we need to waterproof on shower walls? **See addendum 04.**
2. Girls 147 and Boys 166 restrooms currently have a painted floor and spec for install of ceramic tile. Who is responsible for removal of that coating? It will have to be completely removed before installation **General Contractor is responsible for removal of paint.**
3. There are some areas that call for new flooring and existing base to remain. This is not possible. New floor covering would require new cove base **See addendum 04.**
4. Who is responsible for demo of the wall tile in the showers? **See addendum 04.**
5. What extent is the demo of the VCT flooring going to be done by the owner? VCT and adhesive? **See addendum 04.**
