

**Vendor Questions and Answers (1)**  
**Bid 2015-505 Bulk Fuel Services**  
**Gregg County, Texas**

**Question**

Invoicing in net gallons Question: The size of the deliveries to the Gregg County yards, especially Precinct 4, would be from a small fuel truck with a hose reel and meter. The meters on these trucks meet the regulations for calibration set by the state of Texas, but only meter gross gallons. May billing on gross gallons be applied to that type of delivery?

**Answer**

Yes, just for that specific type of delivery only.

**Question**

What is meant by auxiliary (EPA) approved fuel tanks? What EPA specification must they meet? Are these tanks replacing existing equipment? How many and how often are auxiliary fuel tanks requested?

**Answer**

See Environmental Protection Agency rules and regulations for storage tanks [www.epa.gov](http://www.epa.gov) If Gregg County needs a new tank it would replace existing equipment. New Tanks are not requested on a regular basis.

**Question:**

Gregg County Information Question: Does Gregg County currently own the equipment at the four locations listed?

**Answer:**

Gregg County owns all tanks with the exception of one
